

my_dct

This code finish in python3 and use numpy ,opencv-python as tool.

@Hypo,雷海波 1910273011

Run code

```
python image_dct_and_idct.py
```

Result:

QF=1	QF=20	QF=50	QF=100
			

- We can find that image will get worse quality when QF is larger.
- When quantfy DCT blocks, it will loss more information when QF is large.
